Award Description	The purpose of this stimulus funding is to increase the number of children and adults vaccinated against vaccine-preventable diseases in Delaware, and to improve the functionality of the Delaware immunization registry. CDC has allocated a total of \$826,569 to Delaware to support this project. Of the total, CDC will send \$432,125 directly to drug manufacturers for the purchase vaccines. DPH expects to expend the vaccine funds on the purchase of various vaccines for uninsured and under-insured adults and to purchase flu vaccine for use during seasonal influenza activities in the 2009 and 2010 flu seasons. The remainder of the funds, \$385,444, will be used to improve the immunization registry. The registry exists to enhance

Infrastructure Purpose and Rationale	The funds for infrastructure will be used to improve the State's immunization registry, called VACAttack. The current registry was established in 1985 and cannot meet current demands. The enhancements will eliminate the need for paper based reporting, speed up data entry, and eliminate backlogs of data waiting to be entered. Public and Private providers will be able to track children that are due or overdue for immunization and notify them. Complete immunization records will be

	compiled for each child electronically and an algorithm will prevent duplication. The system will allow private providers to monitor the immunization status of their patients and determine practice immunization coverage rates. The Immunization Program will be able to determine immunization coverage rates by provider, age, and geographic distribution. These enhancements to VACAttack have a direct relationship to the goals of the ARRA funding. The purpose of this stimulus funding is two-fold: 1) to increase the number of children and adults vaccinated against vaccine-preventable diseases in Delaware, and 2) to improve the functionality of the Delaware immunization registry.
